

Surveillance System for the Introduction of Antimicrobial Resistant (AMR)
Organisms into the U.S. Following International Travel

Research Study

Date: _____

Dear _____,

Thank you for your enrollment in the MGH antimicrobial resistance (AMR) research study. According to our records, your post travel sample should have been mailed in for testing. Unfortunately, we have not received the sample. Without the second sample, we must withdraw you from the study at this time.

If you have received this letter and *did* mail your sample, it is possible that it has been delayed in the mail. If that is the case, please call the phone number provided at the bottom of the page.

Thank you, again and best wishes.

Sincerely,

The MGH AMR Team
